Work authorization: Anticipated PGWP eligibility upon graduation; subject to IRCC approval.

Summary

Cybersecurity researcher and Information Systems Security master's student with experience evaluating web applications, AI systems, and commercial services. Focuses on vulnerability assessment, adversarial testing, and responsible disclosure. Combines Python analysis and software development with systematic security testing and clear documentation of technical findings.

Education

Jan 2026 – present
Master of Applied Science in Information Systems Security
Concordia University, Montréal
Thesis-based master's - Supervisors: Dr. Mohammad Mannan and Dr. Amr Youssef

Jan 2020 – Jun 2024
Bachelor of Science in Computer Science and Engineering
North South University, Dhaka

Selected Research

2026
Security Evaluation of Face Based Age Verification
Contributed to a study of commercial services across six regions using systematic website analysis and repeatable security tests. Documented control weaknesses and supported responsible disclosure.
Manuscript submitted to the USENIX Security Symposium. More than five companies acknowledged the work, including a written response from k-ID.
vulnerability assessment · security testing · responsible disclosure

Work Experience

Jan 2026 – present
Graduate Research Assistant at Concordia University
Investigate security weaknesses in web and application systems, including attacks involving LLM agents. Analyze findings and potential mitigations at the intersection of AI/ML and security.
security research · AI/ML · application security

Jul 2024 – Aug 2025
Web Developer at Green World Machinery
Developed and maintained responsive websites and web applications. Built reusable code and improved performance, scalability, and cross-browser compatibility.
HTML/CSS · JavaScript · web development

Jul 2024 – Dec 2025
Lab Instructor (part-time) at North South University
Taught C and Java programming and mentored students through semester-long projects and presentations. Supervised lab procedures and provided technical troubleshooting support.
C · Java

Jun 2022 – Jun 2024
Teaching Assistant at North South University
Taught statistics concepts to more than 100 students. Supported grading, course preparation, tutoring, and examinations under academic integrity procedures.
Statistics

Technical Profile

Languages: Python, Java, C/C++, JavaScript, HTML/CSS
Security: Burp Suite, mitmproxy, vulnerability assessment, OWASP, information systems security
AI and Analysis: Deep learning, NLP, explainable AI, Pandas, NumPy, Scikit-learn
Data and Systems: MySQL, PostgreSQL, Tableau, Excel, Matplotlib, Seaborn, Linux, Docker, Git

Certifications and Professional Development

SQL (Advanced), HackerRank | Java (Basic), HackerRank
Introduction to Data Analysis using Microsoft Excel, Coursera
Mastering Computer Forensics and Digital Forensics - in progress
